SUBJECT: RETAIL PRICE LIST CLASSIFICATION
EFFECTIVE NOVEMBER 1, 1987.

Attached is the Liquor Division's Retail Price List Classification to become effective November 1, 1987. This price list covers the months of November and December, 1987 and January, 1988. Retail selling prices published in the quarterly booklet reflect changes resulting from:

1. Adjustments to freight charges from suppliers to the Helena warehouse to reflect as closely as possible actual freight paid on each product; and
2. Any adjustments by vendors to the F.O.B. case prices of products carried by this division.

A section is included in the booklet titled "Product Listings" to inform interested persons of the format and organizational requirements for new listing proposals.

The category of products labeled "Specialty" will be made available on a limited basis. We cannot guarantee consistent availability from our warehouse, but these products can be ordered and purchased by the unit if the need arises.

Price increases or decreases are noted in the right hand column entitled "Status" with "PC" which means price change. Also shown beside the "PC" is the plus (+) or minus (-) amount of price change. New listings and closeouts are marked as such and the price list is categorized both for distilled spirits and wine. Closeouts and other miscellaneous information are to be found in the front pages of this booklet.

STATE PRICING FORMULA

42.11.104 RETAIL SELLING PRICE (1) The retail selling price of liquor, other than fortified wine, as defined in 16-1-106(11), MCA, is determined by adding:

- (a) the department's base case cost; and
- (b) the state markup of 40% on the department's base case cost.

(2) The retail selling price of fortified wine containing more than 16% but no greater than 24% alcohol by volume is determined by adding:

- (a) the department's base case cost; and
- (b) the state markup for fortified wine bottled in the following sizes:

(i) 1.50 liter is marked up at 42% on the department's base case cost plus 27 cents per bottle;

(ii) .750 liter is marked up at 51% on the department's base case cost plus 12 cents per bottle;

(iii) .375 liter is marked up at 59% on the department's base case cost plus two cents per bottle;

- (c) Fortified wine bottled as .720 liter is marked up the same as .750 liter.

(3) The retail selling price of table wine as defined in 16-1-106 (22), MCA, containing not less than 0.5% or more than 16% alcohol by volume is determined by adding:

- (a) the department's base case cost; and

- (b) the state markup for table wine bottled in the following sizes:

(i) 1.50 liter and larger sizes are marked up at 41% on the department's base case cost plus 68 cents per bottle;

(ii) 1.00 liter is marked up at 58% on the department's base case cost plus 25 cents per bottle;

(iii) .750 liter and smaller sizes are marked up at 49% on the department's base case cost plus 49 cents per bottle.

(c) The selling price of table wine that results from adding subsections (a) and (b) is rounded up to the nickel.

(4) For liquor and fortified wine, "base case cost" means the supplier's quoted price plus freight charges from the supplier to the state warehouse and the average freight to all state liquor facilities. For table wine, "base case cost" means the statewide weighted average cost, which is the supplier's quoted price plus freight charges from the supplier to the state warehouse and the average freight to all state liquor facilities, and applicable taxes as provided in Title 16, chapter 1, part 4, MCA.

(5) For liquor and fortified wine, the cost to the retail purchaser is the retail selling price plus applicable state taxes as provided in Title 16, chapter 1, part 4, MCA, the total of which is rounded up to the nickel. For table wine, the cost to the retail purchaser is the retail selling price as provided in subsection (3).

(6) The department may reduce the retail selling price of products which the department has designated for closeout or are determined to be overstocked in order to encourage their purchase and elimination from the state inventory. Closeout products are those that the department has removed from its published listing of classes, varieties, and brands of liquor and table wine to be kept for sale at any state liquor facility. Overstocked products are those classes, varieties, and brands of liquor and table wine which are in the state's inventory in an amount greater than would be sold in a 12-month period.

METRIC CONTAINER SIZES

The federal government requires that alcoholic beverages be bottled in metric sized containers. Metric conversion for wines was mandated to be completed by January 1, 1979; for distilled spirits by January 1, 1980. While there may be some old stock in non-metric sizes still in our system, most of our merchandise is now in metric bottles. The chart below indicates which sizes our code letters specifically designate.

DISTILLED SPIRITS

Montana Code Letter	Metric Size	No. Bottles Per Case	U.S. Fluid Ounces
H	1.75 Liter	6	59.2 oz.
E	1 Liter	12	33.8 oz.
D	750 Milliliters	12	25.4 oz.
C	500 Milliliters	24	16.9 oz.

PRODUCT LISTINGS

Until listing and delisting policy is adopted by rule, current policy is amended to require that new listing proposals be submitted to the division with the following information, organization and format in sections with at least one page for each section tabbed for easy location:

(1) Section 1, describes the proposed product, its sales history elsewhere in the United States, and the reason why the product should do well in Montana;

(2) Section 2, describes the test market locations proposed for the new product, promotions specific to each location that the vendor and vendor's registered representatives will undertake during the 18-month test market period, and the kind and degree of support for these promotions that are expected from the liquor division, the state liquor store manager or agent, and licensees in each location;

(3) Section 3, describes the projected sales by month for the first two years following the proposed listing's effective date, with the projection differentiated for sales to licensees and walk-in trade at state liquor stores, and the rationale used to prepare the projection;

(4) Section 4, describes the expected impact on the market share of each product in the proposed product's sales category by size by the close of the 18-month test market period, and the rationale used to prepare the analysis;

(5) Section 5, contains the standard quotation and specification form signed by the vendor or an officer of the vendor, which is completed for the proposed product, references the NABCA control state code, makes the price firm for the first 3 months following the effective date of the listing, and provides an agreement that subsequent price increases will be noticed not less than 60 days prior to a price list effective date;

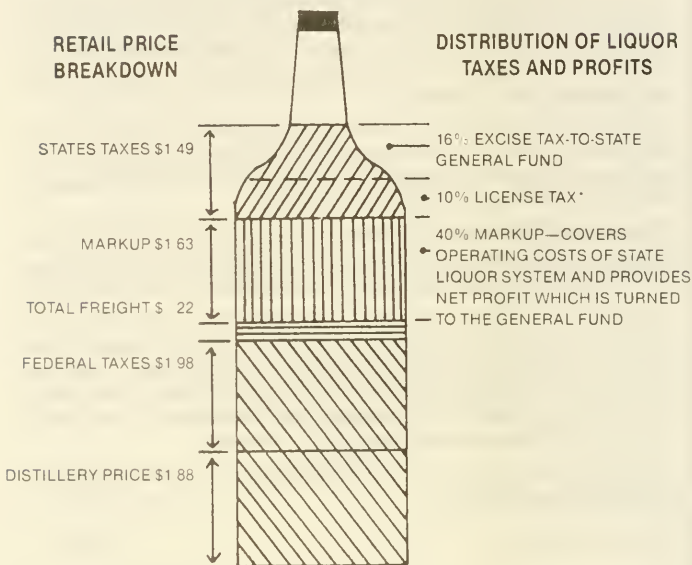

(6) Section 6, is an appendix in which advertising copy or other descriptive material may be placed.
